

ECE803 Tutorial Sheet 1

Friday, 29 October

This is a gentle exercise to find out a bit more about recent cyber security events.

Visit <http://www.hackmageddon.com> and explore some of the recent cyber attacks; you will need to explore the cyber attacks timelines to see more information.

Consider a recent cyber incident, such as Solarwinds, and see what advice you can find that helps companies to mitigate and recover from the incident.
